

Table of Contents

1.0 Executive Summary	5
2.0 Introduction.....	9
3.0 Goals and Objectives	13
3.1 Research Methodology	14
3.2 Data and Information Gathering	14
3.3 Research Validation.....	15
4.0 Industry Interviews	16
5.0 Construction Procurement Models	19
5.1 Specialty Contractor Procurement Model (SCPM)	21
5.2 Owner Procurement Model (OPM)	23
5.3 General Contractor Procurement Model (GCPM).....	25
6.0 Model Evaluation.....	28
6.1 Product Savings	33
6.1.1 Savings from Direct Sales.....	34
6.1.2 Savings from Distribution.....	35
6.1.3 Risk on Labor-Only Contracts.....	40
6.2 Product Selection	41
6.3 Material Management	43
6.3.1 Managing Product Flow.....	43
6.3.2 Managing Details of Build-to-Order Equipment	46
6.4 Design Optimization	49
6.5 Summary	50
7.0 Alternative Procurement Chain Model	52
8.0 Conclusion	57
Appendix A: Vertical Integration vs. Horizontal Integration	60
Appendix B: Measuring Construction Productivity	63
Appendix C: Bibliography.....	65

Table of Figures

Table 1.	Basic comparison of the three procurement chain models.	7
Figure 1.	Comparison of the three procurement chain models using a modified Quality Function Deployment (QFD) diagram.	8
Figure 2.	Basic procurement flow in the Specialty Contractor Procurement Model.	20
Figure 3.	Basic flow of material/equipment, funds, and orders in SCPM with a single specialty contractor.	22
Figure 4.	Knowledge transfer that takes place in the SCPM.	23
Figure 5.	Basic flow of material/equipment, funds, and orders in the OPM.	24
Figure 6.	Basic flow of material/equipment, funds, and orders in the GCPM.	27
Figure 7.	Services available from each member of the procurement chain in the SCPM.	29
Figure 8.	Two types of vertical integration (1) Forward Integration (2) Backward Integration.	31
Figure 9.	Services available from each member of the procurement chain in the GCPM.	32
Figure 10.	Theoretical material and equipment savings for the project owner using GCPM when compared to SCPM. ⁴	33
Figure 11.	Actual savings in the GCPM when compared to the SCPM when procuring directly from the manufacturer.	35
Figure 12.	Distributor and manufacturer comparison of sales and service locations per state.	36
Figure 13.	Distributor and manufacturer comparison of delivery times for standard distributor stock items.	37
Figure 14.	Distributor and manufacturer comparison of average collection time period.	38
Figure 15.	Distributor and manufacturer comparison of finished goods days' supply.	39
Figure 16.	Actual savings in the GCPM when compared to the SCPM when procuring through distributors.	40
Figure 17.	Product selection in the GCPM.	42
Figure 18.	Product selection in the SCPM.	43
Figure 19.	The trend of construction labor productivity from 1973 to 1997. ¹²	44
Figure 20.	Cumulative labor productivity growth from 1987 to 2000. ¹⁴	45
Figure 21.	Timeline for design process, contract selection, and procurement.	47
