

# SPECIAL EVENTS

## SMAC PAC Auction

**Viva Fiesta! Hold on to your sombrero!** The SMAC PAC event on Monday evening in the Southwestern Paradise of Phoenix will be a celebration with the tradition of warm hospitality mixed with a spirited and colorful party.

Enjoy bold colors and a bold menu in a casual atmosphere during a lively, colorful and entertaining evening filled with delicious food, sangria, margaritas and a full open bar. Bring your castanets—the sangria alone will make you want to dance! Tickets are required for the reception and dinner buffet. SMAC PAC will host its usual silent and live auctions featuring professional auctioneer Jim Murphy.

## College of Fellows Golf Outing

The College of Fellows golf outing will be held on Sunday, October 10 on the JW Desert Ridge Faldo Course. The Faldo Championship course offers a slight variation from the typical desert-theme courses. It features generous fairways, large bent grass greens and tee boxes. The surrounding mountains and century-old saguaro cacti as well as 106 sand bunkers, reminiscent of the Australian sand belt courses, provide a spectacular setting.

The monies generated from the outing are support for the College's scholarship activities. Your participation is encouraged. Use the form included with this brochure, or go online, to make your reservation.

## New Technology Sessions

SMACNA Associate Members will have the opportunity to make brief presentations about their products and services on Tuesday. These sessions proved very successful at the last convention, giving suppliers a one-on-one opportunity to present technical information related to their products and services, while meeting with existing and future customers.

## Product Show

The Product Show, which will open on Tuesday morning with a continental breakfast, is an excellent vehicle for industry suppliers to meet and bond with the decision-makers for most of the HVAC and specialty sheet metal contractors in the industry. There is a great benefit in getting to know your business partners and to build solid business relationships. At the Product Show, SMACNA contractors and suppliers are provided the opportunity to have profitable discussions concerning common needs, goals, industry directions and emerging technologies and products.
