CLEARSTORY

SHEET METAL & HVAC CONTRACTORS

Purpose-Built for Sheet Metal & HVAC Change Order Risk.

"With Clearstory, we're getting paid faster, our Change Orders are cleaner, and we're not losing revenue because of missing or late backup. The amount of savings has been significant."

Mike Greco
Project Manager, Sylvan

Real Solutions for Sheet Metal & HVAC Projects

Get Paid Faster
A shareable, cloud-based COR log keeps your GC up to date in real time, so change order work doesn't sit in limbo while your cash is tied up.

Protect Revenue at Risk
Photo-document and digitally sign field-directed extra work the moment it happens, so T&M Tags stop getting lost, disputed, or written off.

Connect to the Systems You Already Run
Push CORs directly into Procore, Sage, Vista, CMiC, Autodesk, and other ERP/PM systems you and your GCs use, so nothing gets re-keyed or chased down after the fact.

Know Exactly Where Your Money Stands
Real-time days aging and read-receipts show you precisely how close each dollar is to being paid, not just where the paperwork sits.

Real Success for Our Customers

How Clearstory Keeps You Covered

1 **Capture Out-of-Contract Work Quickly and Professionally**

Instantly log field-captured digital T&M Tags for ductwork and mechanical install work, or create new CORs from Clearstory templates or T&M Tags

2 **Track Every COR in One Universal Log**

Automatically generate a live, shareable COR log for every project. Update and collaborate with your GC customer in real time.

3 **Align on COR Exposure Internally and Externally**

Share the universal COR Log link with GCs not yet in Clearstory, or sync instantly with GCs already in the Clearstory network.

Real Impact. By the Numbers.

- Reduce COR Processing Time by 90%
- Get COR Approvals 65% Faster
- Minimize Risk of Lost/Rejected T&M Tags to <1%
- Improve Cash Flow & Reduce Days Aging
- Save Valuable PM Time: Up to 5 Hrs/Week
- Create Better Customer Relationships

SMACNA members receive 15% off their first year contract.
