

It's a celebration at **FastEST Estimating Software** as we mark our 30th birthday!

Over the past three decades, we've made incredible strides in improving our software, but some things have remained constant:

Customer Service.

From day one, providing exceptional service to our customers has been our top priority. We've always believed that happy customers are the heart and soul of our business, and it brings us immense joy to hear that our dedication to customer service is what our valued clients love most about FastEST.

Family and Employee-Owned.

FastEST Estimating Software is more than just a company; it's a family. Built on strong family values, our growth over the past 30 years has been fueled by the dedication of our first and second generations. Together with our incredible employees and customers-turned-family, we continue to serve our community with pride.

Powerful Functionality, Made Simple.

We understand that technology should empower, not hinder. Our goal, since day one, has been to help our users bid more, win more, and earn more. With our easy-to-learn and easy-to-use interface, users can jump right into bidding their first job on their very first day using our software.
